APPS. BEER. CODE.

Developers get their ABCs in Palm Springs

DEVELOPER SUMMIT

March 10-13 Palm Springs, CA

FOR DEVELOPERS. BY DEVELOPERS

More than 2,500 GIS enthusiasts gathered in Palm Springs for the Esri Developer Summit (Dev Summit). They took away real skills from more than 300 technical sessions and learned the latest for building applications for web, desktop and native environments.

Watch the [Plenary Session videos](#) to see the latest advances in developing competitive apps that make a difference.

Browse DevSummit Videos →

NETWORK

Form lasting connections with die-hard geodevelopers.

DISCOVER

Get access to experts who can answer your specific questions.

APPLY

Put best practices to work as soon as you get home.

TEST DRIVE

Explore the latest geospatial technology hands-on.

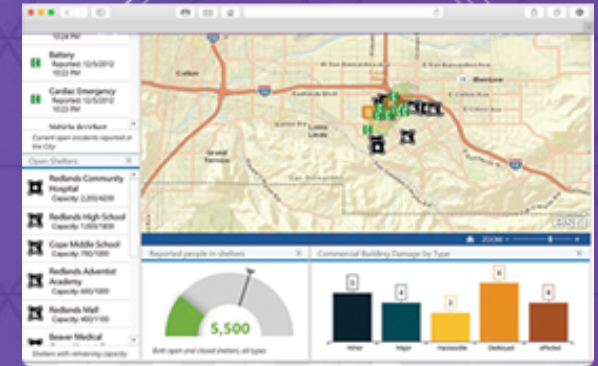

“Attending the DevSummit is energizing and super enlightening. It’s big enough to get a ton of content but small enough to make new friends, meet old rivals, and interact personally with Esri staff.

And dang, Palm Springs ain't bad either!"

– James H. (2014 DevSummit Attendee)

NATIVE APPS AND SDKS

Discover ways to better leverage your GIS investment, and test-drive ArcGIS on a variety of devices. Streamline how you build native applications with ArcGIS

DESKTOP DEVELOPMENT

Explore best practices for development patterns, problem solving, deployment challenges, and platform integration. Then get your questions answered by

WEB DEVELOPMENT

Take home best practices for web-application security, performance, scalability, map services, caching, feature services and editing, and more. Get the scoop on the next

Runtime SDKs. Plus, bounce ideas and challenges off the staff responsible for building and implementing Runtime SDKs.

Products

Collector for ArcGIS, Operations Dashboard for ArcGIS, Explorer for ArcGIS, ArcGIS for Windows Mobile, ArcPad

Runtime SDKs

Android, iOS, OS X, Java, Qt, Microsoft.NET Framework

the people responsible for building and deploying apps with ArcObjects, Python, and the ArcGIS Pro SDK for the Microsoft .NET framework.

Products

All core ArcObjects SDKs, COM extensions, add-ins for ArcGIS 10.x, C# and Visual Basic. NET (VB. NET), Python (including ArcPy for 10.x and ArcPy for ArcGIS Pro), ArcGIS Pro SDK (including add-ins, Windows Presentation Foundation [WPF], and C# and VB. NET)

generation of ArcGIS API for JavaScript that will support 2D and 3D web apps. Plus, catch demos.

Products

ArcGIS for Server, Portal for ArcGIS, ArcGIS Network Analyst Services, Linux, ArcGIS Server for Amazon and Azure, Esri Production Mapping for Server, Esri Roads and Highways, ArcGIS Workflow Manager, ArcGIS Data Reviewer, ArcGIS for INSPIRE, Esri Geoportal Server
