# BREAKING BARRIERS

---

Learn how Esri's ArcGIS® platform is helping utilities break down barriers at the Esri Electric and Gas GIS Conference (EGGC) in October.

**Business Barriers:** Cost, time, management, politics

**Technical Barriers:** Development effort, custom coding

**Communications Barriers:** Internal, external, regulatory, customer-facing

**Information Barriers:** Redundant files, missing information

Join more the 600 utility professionals to discover how the  
ArcGIS platform can break your barriers.

# AGENDA AT A GLANCE

---

EGGC tailors content to help attendees learn how GIS enhances their role in the utility. The conference is uniquely focused on supporting the professional growth and development of attendees through user presentations, Esri experts-lead sessions and peer-to-peer engagement.

## Tech Workshops

Hear the latest on product updates, tips, and tricks from Esri experts for successfully deploying and implementing your GIS.

## User Presentations

The EGGC committee carefully selects speakers and analyzes industry trends each and every year to ensure new and relevant topics. Hear

## GIS Solutions EXPO

Explore a packed show floor with leading partners that have the resources your utility needs to go to the next level. 2015 EGGC host

## Hands-on Learning Lab

Explore Esri software offerings and get free training. The Learning Lab offers self-paced training sessions (approximately 45 minutes each)

from other utility professionals about creative geospatial solutions to common challenges and see how GIS is solving their business needs.

National Grid's booth will showcase the utility implementations of the GIS platform.
