Esri at OSP EXPO 2015

Drive Business with the Power of Location
September 1-3 | Denver, CO
Esri Booth #627

[Meet with Esri →](#)

We've Located Your Best Network Platform

[Exhibit Hours](#)

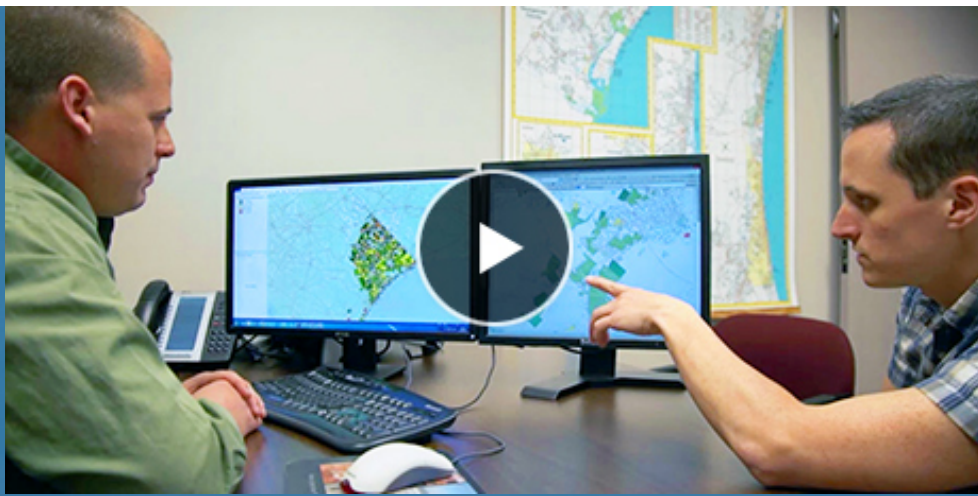

Imagine you could better prioritize your organization's efforts. You could increase revenue, reduce time to market, and work more efficiently. Plenty of COTS systems do one of more of these. Wouldn't it be great if one system did it all? Good news. The ArcGIS® platform delivers award-winning analytics to help transform your big data into your next smart move. Best of all, the platform supports your entire organization – in the field, office, or executive conference room – so everyone has the most updated information, to do their best job. Come to booth #627 at the OSP EXPO and learn how the ArcGIS platform is transforming today's service providers into tomorrow's most efficient telecommunications companies. Catch live demonstrations of :

- Network Operations Control (NOC) – Dashboards help monitor wireless network and alarm scenarios.
- Internet of Things (IoT) – Smart energy dashboards monitor electrical grids in real-time using smart meters, while smart home automation dashboards deliver powerful consumer value through geofences.
- Serviceability – Mobile applications empower sales representatives with confidence in the field, and web apps deliver smarter network buildout plans.
- Business Analyst Operations (BAO) – See what happens when your business intelligence reports become automated and augmented by GIS.

Wednesday, Sept 2
11:30AM-6:30PM

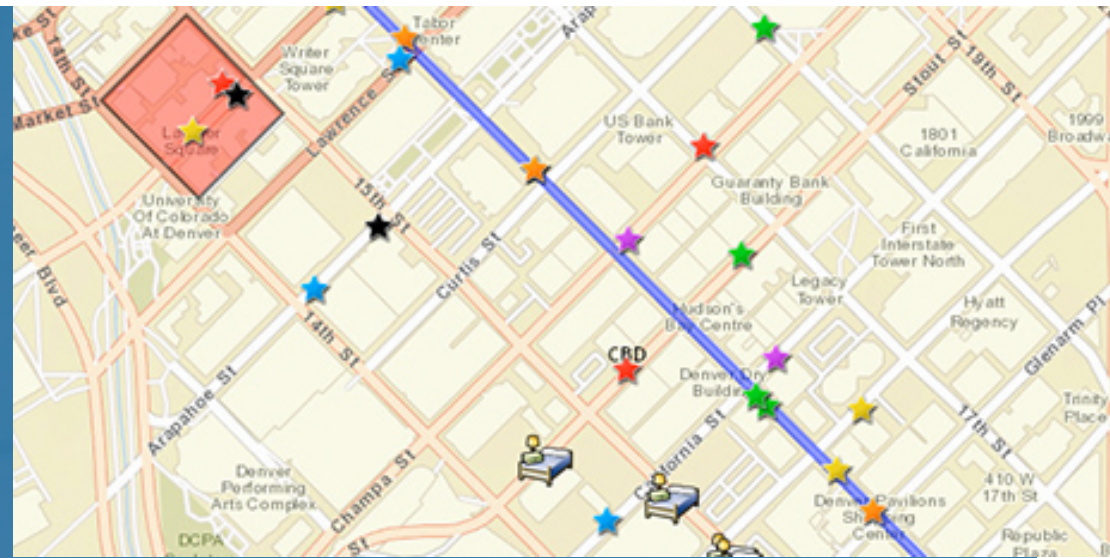

Thursday, Sept 3
11:30AM-3:00PM

Horry Telephone Cooperative (HTC) Saves \$32 Million with a Location Strategy on the ArcGIS Platform

Learn how the largest telephone cooperative in North America uses GIS to strategically target specific services and offerings to their customers.

Points of Interest Map

OSP EXPO has partnered with Esri to bring you the OSP EXPO Points of Interest Map. Click on the icons within the map for more details. Use the zoom function on the left hand side of the map to zoom in and out of a specific area

Visit us at OSP EXPO for direct access to Esri Telecommunication staff.

Check out our telecom-specific solutions, ask questions, and explain your workflow needs to help influence the next solution releases. If you want to schedule a special time to visit with our staff, please let us know and we will look for you.

Please visit other Esri Partners on the show floor

It's time to harness the power of location
