Gain Actionable Business Intelligence

Drive powerful decisions backed by data. Mavenlink offers a tool specific to your needs called Mavenlink Insights. With Insights, you get 26 interactive, customizable reports that answer the key questions high-performing teams continually face. Quickly identify trends affecting your margins, utilization rates, and project delivery. Forecast future issues before they impact performance. A world-class BI engine lets you design your own reports and dashboards from more than 300 metrics. It's time to automate time-consuming

Identify trends as they happen

01. Track time and milestones for your delivery teams

02. Automate updates for BI report

03. Forecast revenue precisely

One Information Source
Make Sense in One Place.

- All your project financials live in Mavenlink...and sync with your GL or ERP. Find what you need, synthesize information, and share your findings with stakeholders.
- Quickly understand what the data is telling you, thanks to a clean, well-organized interface. So you can access and create elegant reports.
- Conveniently export your findings in .csv, .xls, and .pdf formats.

Clearer Understanding.
Monitor and Interpret Data.

- Track the progress of ongoing projects and costs with simple work-in-progress (WIP) reports.
- Measure your actual versus projected figures, including margins, bill rates, and cost rates.
- Build simple expense reports that track all your expenses incurred across the business.

Easier Billing
Collect Cash Faster.

- Synchronize with Intacct, NetSuite, or Quickbooks to automatically transfer time and expense data.
- Generate error-free invoices from Mavenlink or your GL. Choose fixed-fee billing, time-and-materials, or both.
- Give project teams visibility into invoice status to accelerate cash collection.

More Time to Strategize.
Spend Less Processing.

- Get real-time analytics on your people, projects, and profits.
- Generate and filter intuitive reports that drive your best decisions for the future.
