ONLINE PROJECT MANAGER SOFTWARE

As a project manager, your success depends on having constant visibility into your projects. Whether you're managing one project plan or 500, making timely decisions requires keeping a constant eye on tasks, timelines and deliverables.

Your people and time are your most important assets. With many plans requiring hundreds of interdependent tasks, you need to constantly monitor your team and resources in order to produce deliverables on time and in budget.

HOURS TRACKED			PROJECTS	PERSONNEL	TASKS	TOTAL
210h 14m	■ Billable: 210h 08m ▪ Non Billable: 0h 06m		5	3	8	$37,270.08

TEAM MEMBER	TOTAL		■ BILLABLE		▪ NON BILLABLE	
Megan Olson	92h 56m		92h 50m	100%	0h 06m	0%
Jake Ryan	42h 18m		42h 18m	100%	0h 00m	0%
Mark Smith	75h 00m		75h 00m	100%	0h 00m	0%

WHY MAVENLINK?

We Improve Your Visibility

We understand that you need more than a planning tool. Unlike traditional work management applications, we built our software to reinvent how you take a project from concept to completion. We give you the product features and intelligence you need to make more informed decisions, so you know where your time and resources are best applied.

Whether you're a certified Project Management Professional (PMP) or just starting out, our software makes it easier to stay on time and on task. You can rely on us to help you do your job better, every day.

Benefits for Project Managers

One Application. Every Activity.

- Consolidate all activities into a single,

Plan by the Gantt.

- Visualize tasks in a full-featured online Gantt chart
- Drag and drop to rearrange tasks, set

shared application to improve team collaboration and task execution

- Organize tasks and sub-tasks with assignees, due dates, checklists, and percentage complete

73%

Manage People. Track Time. Watch Expenses.

- Keep clients and executive management informed with up-to-the-minute insights on team productivity and billable hours
- Set budgets
- Monitor expenses and review change requests

More than Reports – Real Time Performance Analytics.

- Measure each team member's billable hours, productivity and utilization to optimize your staff resources
- Analyze profit margins across projects and roll up the results
- Get instant answers with a real-time analytics dashboard

PRO TIP

With Mavenlink you can create and save templates to pre-populate your tasks, deliverables, and milestones.

This is especially helpful on projects with recurring tasks, allowing you to duplicate successful plans and avoid the need to re-create a new task list each time. To get started, select "View and Create Project Templates" in the "Projects" dropdown menu.
