### (Tera)Byte into This

Here are three can't-miss reasons to register for the Esri Developer Summit (DevSummit):

1. Get sneak peeks into the next generation Android API and the latest from Esri's application prototype lab.
2. Take home real skills that help you get your apps to market faster with greater competitive edge.
3. Use Esri's [Palm Springs Shortlist map](#) to cross something off your Palm Springs bucket list.

**Register Today**

PS: Need to justify your trip? Use our [justification letter](#) to convince your boss to let you attend, and see specific skills you can take away in our [detailed agenda](#).
